When you enroll in Pfizer Dermatology Patient Access, you have the option to be contacted by a Pfizer Patient Access Coordinator (PAC), who can help you understand your insurance benefits and navigate the process to access your prescribed medication. PACs are field-based employees of Pfizer and, if you choose, will help answer questions you may have about accessing the medication prescribed by your physician. PACs are very familiar with access and reimbursement requirements for CIBINQO™ (abrocitinib) and LITFULO™ (ritlecitinib), and the PAC assigned to you will coordinate with Pfizer Dermatology Patient Access and you on your journey to starting therapy (although you will still need to contact Pfizer Dermatology Patient Access directly if you are seeking financial assistance). Working with a PAC is optional. Even if you choose not to opt-in for this support, you may still access all patient support programs you are eligible for by working with a patient support representative at Pfizer Dermatology Patient Access.
